Why LASSO?

- **Built for Showcallers, Not Spreadsheets:** Edit with the ease of tools you already know with faster, more intuitive layouts keep your team in sync without the clunky workarounds of generic spreadsheets.
- **Real-Time, Risk-Free Collaboration:** Crew members, producers, and operators update the same rundown simultaneously with instant sync, automatic time recalculations, and safe conversions that never overwrite your originals.
- **Configure It Your Way:** Reorder columns, rename fields, drag and drop rows, and tailor views to match your workflow. Rundown molds to the shape of your show instead of forcing you into rigid templates.
- **Run Shows Anywhere:** Our enhanced mobile and tablet experience lets showcallers, operators, and crew track cues, follow timing, and stay aligned and Includes a new shareable Speaker Timer view for presenters.

"I've been using Shoflo for 2 years and it's the best software out there. I won't do another event without Shoflo to keep my team on track. Every detail is logged into Shoflo and it makes it so much easier for me to delegate to others to help manage the details of the show.

-Brittani Arrington | Event Production Manager at Nerium International
