

Warehouse Manager

Every prompt Lassie can run for you today. Fill the **[brackets]** with your own client, event, venue, or name—then say it to Lassie.

ASK

Lassie finds and reports. Read-only—changes nothing.

ACT

Lassie changes a record—previews first, waits for your okay.

BUILD

Lassie generates a file from data already on screen.

ADVISE

Lassie reasons across reads, then tells you what to do.

ASK 13 prompts

Pull the venue contact list.

What gear is missing from the warehouse?

Show me missing [product].

What did we lose on [event]?

What gear needs sourcing this week?

What shortages are coming up for this event?

Who should we source this subrental from?

What did we last pay to rent this?

What pack sheets need attention this week?

What's leaving the warehouse tomorrow?

What's coming back this week?

Show orders with unpacked items.

Show me the detail on this pack sheet.

ACT 1 prompt

Add a loading-dock contact to this venue.

BUILD 1 prompt

Export the missing-gear list to a spreadsheet.

ADVISE 11 prompts

What gear problems are about to bite me this week?

Which shortages should I source now versus wait on?

Where am I overspending on sub-rentals I could own?

What's the pattern behind our missing gear?

If you ran the warehouse, what would you get ahead of today?

Which pack-outs are most at risk of going out short?

What gear keeps coming back late or short, and on whose events?

What gear should we own instead of renting again and again?

Which products go missing most often, and where?

Where are this week's prep bottlenecks?

Which vendors should I rely on for sourcing?
