LASSO

Get your events on the same page.

Ensure every moment runs seamlessly through LASSO.

LASSO allows you to **manage gear, coordinate labor, track time, and craft schedules**, eliminating the need for disjointed tools or spreadsheets.

Offering intuitive task list templates, smart logic, a content/document hub, and collaborative features like guest permissions and real-time communication, LASSO ensures all your project essentials stay organized in one central location.
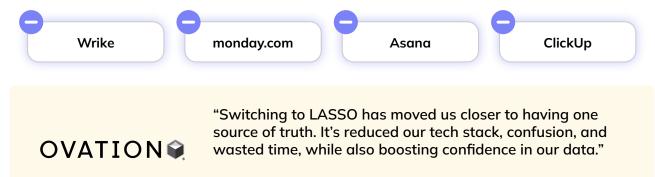

Key Features

Visualize Schedules

Automate with Task List Templates

Mobile Application

Guest Permissions for Visibility

Why LASSO?

- **Centralized Communication:** Create shared communication channels for every single event, task, or team in LASSO so you can stay on track without leaving the platform.

- **Content & Task Management:** Enter event dates and automate each project with task list templates and tagging the right team members so every task will be assigned to the right people at the right time.

- **Visualization of Your Entire Schedule:** Get a bird's eye view of your schedule across all of your events so you can see what's completed, what's due today, and what needs immediate attention so you can hit your timelines.

OVATION

"Switching to LASSO has moved us closer to having one source of truth. It's reduced our tech stack, confusion, and wasted time, while also boosting confidence in our data."

-Director of Process Improvement, *Ovation*
