

# Easy time tracking from clock-in to payroll.

Traditional timekeeping struggles often lead to inaccuracies in payroll and operational inefficiencies. LASSO simplifies this by offering a flexible, app-based system that accurately captures every minute your team works.

LASSO accommodates every type of worker – from freelancers to full-time employees, offering customizable methods to clock in and out, ensuring accurate and streamlined payroll processing.

**Real-Time Workforce Insights**

**Automated Payroll Calculations**

**Flexible Clock In/Out Methods**

**Comprehensive Reporting**

## Why LASSO?

- **Real-Time Workforce Insights:** Monitor who's on site, assess overtime risks, and manage your team more effectively.
- **Automated Payroll Calculations:** Simplify complex payroll rules including overtime, varying shift timings, and statutory requirements, ensuring accuracy and compliance.
- **Flexible Clock-In/Out Methods:** Supports various methods for tracking time, including app-based, supervisor-monitored, and physical time clocks, catering to diverse crew needs.
- **Comprehensive Reporting:** Generate detailed reports on labor costs, attendance, and compliance, aiding strategic decision-making and operational transparency.

“Instead of spending four hours every two weeks, it now only takes 5 minutes a day to track our time with LASSO. When it comes time to track payroll, it’s just a matter of clicking a button and we are done.”

-Brad Gibson. | *Owner & CEO, Capital A Productions*
