

LASSO Job Description

Role: QA Engineer

Team: Engineering (QA Team)

Location: Must be based in Charleston (Hybrid)

About LASSO

LASSO is the all-in-one platform where event companies work. We provide project management, inventory management, and workforce management software that helps event companies with:

- Growing revenue
- Streamlining operations
- Controlling costs
- Minimizing risk
- Real-time insights
- Attracting AV talent
- Producing events

Our mission is to inspire change for forward-thinking companies in the event and entertainment industry by bringing transformative solutions to the people that make exceptional performances happen.

Our customers produce events like the Super Bowl, The Oscars, The Grammys, NFL/MLB, Dreamforce, CMA's, etc.

LASSO is proud to have been named a Best & Brightest Company to Work for the last five years (2018-2022) and one of Inc. 5000s fastest growing companies in 2022 (#1155, overall and #146 in technology).

About the Role

Do you have a passion for developing groundbreaking mobile applications? Are you a self-starter that excels in small, agile team environments? Do you care about quality and the end-user experience? Are you looking to join a product development team that is looking to

change how a whole industry operates? Do you like to iterate and validate your work by delivering value rapidly? Are you ready to learn and grow your career?

LASSO is seeking a **QA Engineer** to join our dynamic and fast-paced team. Our strengths are in our relationships among the team, tight coordination with the company, and our friendly work environment. If you enjoy working in a fast-growing company where your contributions make a significant difference to the lives of both our customers and their contingent, mobile crew, then this position is for you.

As a member of the QA team, you are a key player in helping LASSO reach its goals while you develop an impressive track record for working in a growing, high performing company. You will have exposure and input into product strategy and technology decisions.

Responsibilities

- Create, execute, and maintain comprehensive test plans for our platform, including functional, integration, regression, and performance testing.
- Work with product, design, and engineering team to implement and test key components of products.
- Ability to apply technical expertise to our platforms to improve testing, efficiency, tools, automation, release, and quality of the software.
- Collaborate closely with the product and engineering teams to understand requirements, review feature designs, and contribute to high-quality releases.
- Analyze and report on test results, track defects, and provide regular updates to the project team.
- Participate in daily stand-up meetings, contribute to QA and testing improvements, and help define best practices.
- Highly motivated, self-starter, results-oriented team player with the ability to work independently.

Qualifications

- Degree in computer science or comparable work experience in software development.
- 3 or more years of automation or programming experience working with SaaS products.
- Work with product, design, and engineering team to implement and test key components of products.
- Experience implementing automated tests using an established JavaScript testing framework, preferably Cypress.
- Proficient in automated testing when implementing new functionality
- Proficient in testing and automating REST APIs.
- Experience working in an Agile environment.

- Knowledge of QA methodology and industry-standard testing and bug tracking tools
- Strong understanding of QA methodologies, tools, and processes
- Proven ability to write clear, concise, and comprehensive test plans and test cases
- Strong problem-solving skills, attention to detail, and a commitment to quality
- Excellent written and verbal communication skills

We look for individuals that align to our core values: Believe the Best, Act with Purpose, Champion Success, Think Like an Owner, Be a Trailblazer, and Saddle up.

Benefits

- + Hybrid work environment
- + Competitive salary
- + Health, Dental, Vision, STD/LTD coverage, starting Day 1
- + 401k match
- + Educational Assistance
- + Professional Development stipend
- + Flexible PTO
- + Technology tools to do your best work
- + Awesome co-workers

 **Come join our growing team!**
